

The Cost Reduction Manager

Supporting Better, Faster Financial Decisions

What Is The Cost Reduction Manager?

Cost Reduction Manager empowers Financial Managers with critical payroll cost indicators and trends with just a few key strokes. What may have taken many hours of compilation, charting and analysis, can now be accessed and interpreted in minutes! With Cost Reduction Manager your path to cost saving, profit generating financial decisions is shorter, in some cases much shorter.

One key labor related financial decision made better and faster could translate into thousands, tens of thousands even hundreds of thousands of dollars in savings or revenue.

How Does The Cost Reduction Manager Work?

The Cost Reduction Manager is a module installed in Millennium. It automatically updates with every payroll, providing current payroll cost information. The data is separated into three tabs: Payroll Statistics, Payroll Trends and Monthly Trends.

Here is a brief description of each tab:

Payroll Statistics

Payroll Statistics will chart your key labor cost indicators for each payroll processed, including Wage Data, Tax Analysis, Cash Flow, Demographics etc...all at a glance. Each area is expressed by total amounts, percentages and in color coded bar charts.

The Cost Reduction Manager is so flexible, you can customize your charts to the specific needs of your company.

Payroll Trends

With Payroll Trends, your payroll cost indicators are charted pay-period by pay-period in color coded bar charts. Your data is conveniently grouped into calendar quarters and year-to-date, or select a customized date range.

Monthly Trends

Monthly Trends summarizes your current payroll cost indicators by month and charts them in color coded calendar year bar charts, or select any previous year for comparison purposes.

How Do I Hire The Paypro Cost Reduction Manager?

It's easy. There are no time consuming set-ups. No large start-up fees. Just contact your Customer Services or Consulting Services Representative.

If no customization is indicated, we simply install The Cost Reduction Manager. No support from your IT department is required.

What Does The Cost Reduction Manager Cost?

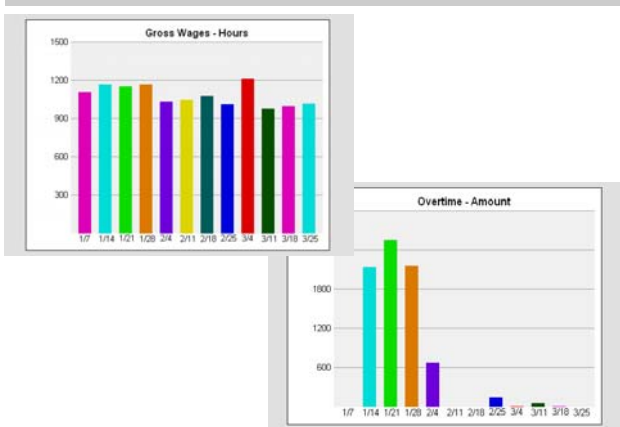

That's simple. The Cost Reduction Manager is just \$9.95 per month whatever the size of your company.

For the cost of four cups of designer coffee a month, you can arm your entire financial management team with an enormously powerful labor cost analysis tool.
